Some games were filtered out from this search. Sorry.

OVERVIEW

Steam Summer Sale

NOTE: Only the games with significant changes in their owners were included in this table.

Actual number of total copies sold during the sale is bigger than shown below, because many games sold less than 5,000 copies and weren't accounted for!

Games in these stats: 1377

Average userscore: 78.67%

Average metacore: 76.21%

Total copies sold: 36,410,323

Average price: \$5.75

Average discount: 59.61%

HELP

Owners before and after: Estimated number of people owning this game before the sale and yesterday.

Sales: Estimated number of new owners during the sale.

Increase: Estimated increase in owners compared to original number of owners.

Max discount: Maximum discount (and minimum price) during that period.

Average score: Average users and metacritic score for all games with this score assigned.
